DEVELOP POSSESSION, OVERLOADS & SPEED GAME

28-P13 | ADV. LEAD

ORGANISATION

- This advanced lead practice takes place in a 50 by 80-yard area and focuses on developing possession, overloads and speed.
- We have three areas running simultaneously in this practice. Area 1 consists of a 6 v 2 build up scenario. Area 2 consists of a 2 v 2 + 1 Floater Possession Game. Area 3 also consists of a 6 v 2 build up scenario, with players in a different format to Area 1.
- If attackers make 10 passes in Areas 1 and 3, they are awarded with a goal. If the defenders win the ball they can finish past the goalkeeper.
- Coaches will whistle at random intervals, signalling the start of an attack. At this time, the player in possession in Area 2 will trigger a 3 v 2 attack with their two teammates in either Area 1 or 3 (Depending on which team is in possession)
- While this takes place, the extra players will sprint between the cones until the attack breaks down and play restarts.

KEY COACHING POINTS SUMMARY

- Quality passing to maintain possession
- Off-the-ball movement to create good passing angles
- Quick reactions to break out and attack in 3 v 2 overload
- Draw in defenders to play around/through
- Speed between the cones
- High levels of communication throughout

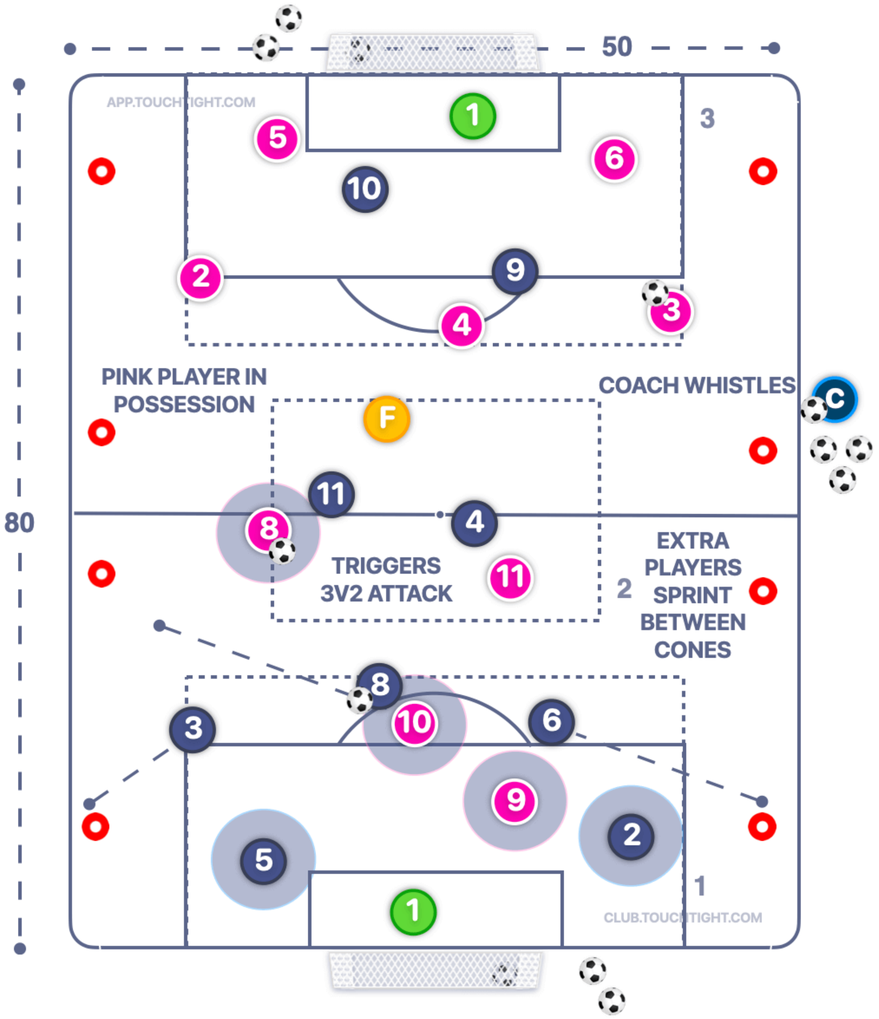

BETTER COACHES. BETTER PLAYERS.

28-P13 | ADV. LEAD

BREAKDOWN PART 2

Coaches will whistle at random intervals, signalling the start of an attack. At this time, the player in possession in Area 2 will trigger a 3 v 2 attack with their two teammates in either Area 1 or 3 (Depending on which team is in possession). While this takes place, the extra players will sprint between the cones until the attack breaks down and play restarts.

BETTER COACHES. BETTER PLAYERS.
