DEVELOPING THE MIDFIELD THREE

77-P5 | RONDO

ORGANISATION

- This rondo based practice takes place in a 10-yard hexagonal shaped area and focuses on developing players ability to maintain possession.
- We set up by splitting players into two teams of 6 players, with three players from each team on the outside's of the area and three players starting in the central area.
- In this 3 v 3 + 3 rondo, the objective is for the team in possession to combine with their outside teammates and make 10 passes to be awarded with a goal.
- If the 3 defenders win possession, the roles are reversed. If an outside player loses possession, the three outside players will switch with their central teammates and become the defenders.

KEY COACHING POINTS SUMMARY

- Quick one and two touch passes
- Short sharp combination play
- High levels of communication
- One player assigned to count passes
- Defenders must press as a cohesive unit
- Do not block passing lanes to outside players

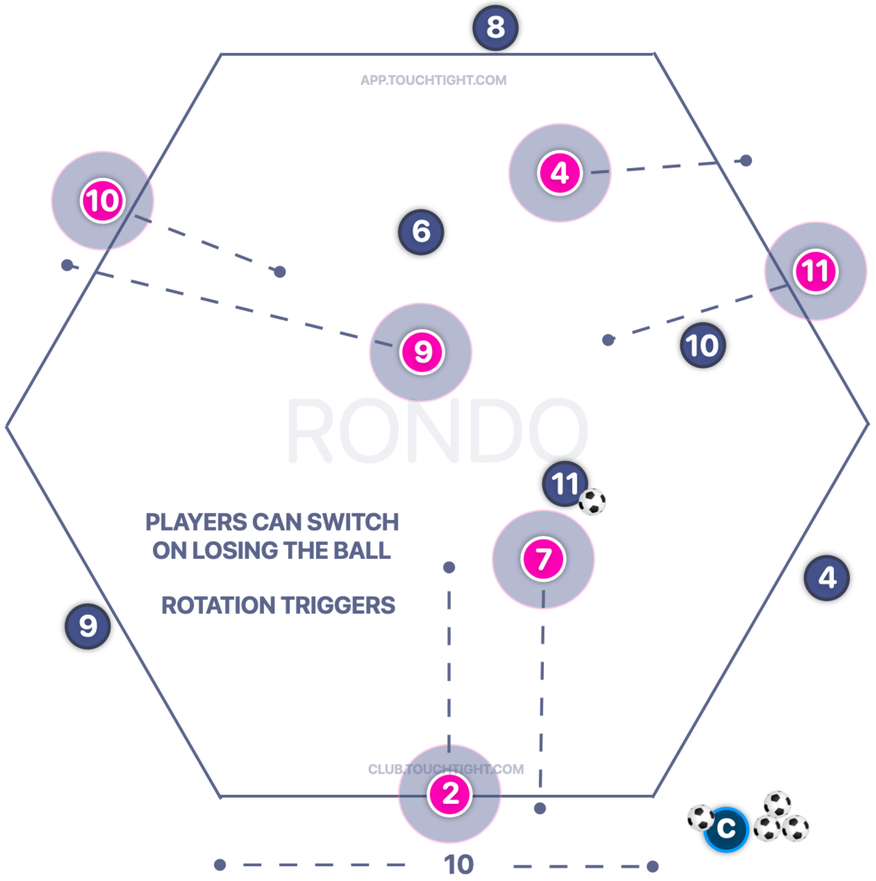

BETTER COACHES. BETTER PLAYERS.

DEVELOPING THE MIDFIELD THREE

77-P5 | RONDO

KEY COACHING POINT

Players can switch on losing the ball, using rotation triggers. The team decides when wide players rotate in after losing possession, such as every 60 seconds or after three turnovers, encouraging alertness and tactical awareness.

PROGRESSION

Allow one extra defender to enter the central area, creating a 6 v 4 possession scenario. This challenges attackers to maintain control under pressure and improves decision-making and movement in tight spaces.

BETTER COACHES. BETTER PLAYERS.
