DEVELOP MIDFIELD PASSING & AGILITY WORK

36-P3 | TECHNICAL

BETTER COACHES. BETTER PLAYERS.

TECHNICAL

ORGANISATION

- This is a technical exercise and works on passing in a 20 by 20-yard area and physical exercises in between.
- With 4 players set up on separate cones, player 1 must play a direct pass into player 2 who must then set onto player 3 who plays across the area into player who 4 who sets the ball back to the start.
- Player 2 and 4 must then complete a physical exercise such as ladders or shuttle runs before joining the end group.
- End players move to the next cone to continue the next practice.

KEY COACHING POINTS SUMMARY

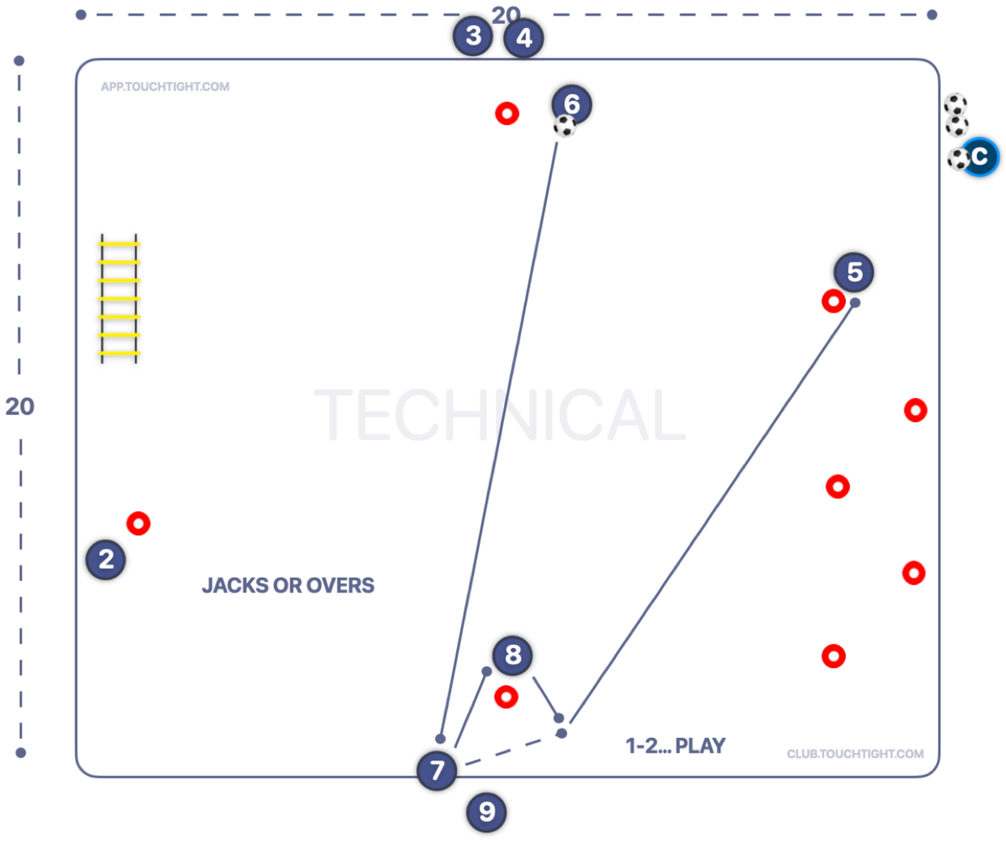

- Weight and accuracy of pass
- Touch to set players or themselves for next pass
- Quick feet and speed on physical exercises

DEVELOP MIDFIELD PASSING & AGILITY WORK

36-P3 | TECHNICAL

PROGRESSION 1

Add a Jacks Play (a sharp 1–2 set) at one end of the technical sequence, giving players a clear combination trigger before accelerating forward, increasing the tempo, and quality.

PROGRESSION 2

Add a Jacks Play at both ends of the technical sequence, creating two combination points that demand sharper timing, quicker movement off the set, and higher concentration.

BETTER COACHES. BETTER PLAYERS.
