DEFENDING AND COUNTERING FROM DEEP

37-P6 | SMALL SIDED GAME

ORGANISATION

- This small sided game takes place in a 25-by 35 yard area and focuses on developing balanced attacking play and supporting quick counters on the turnover of possession.
- We setup with a 5 v 5 in the central area, a goal and goalkeeper on each end and the playing ares split into two halves.
- The objective of this practice is for the attacking to build up play and can only finish once all 5 players are in the attacking half.
- If the defending team win possession, they must break quickly and be supported by their full team in the opposition half to finish. Players must react quickly to transition from attacking to defending to stop dangerous counters.

KEY COACHING POINTS SUMMARY

- Progress play as a team to ensure all players in the attacking half
- Focus on defensive spacing from back to front
- Quick reactions to transition from attack to defence
- Communication to maintain defensive shape
- Clinical finishing when opportunities are created
- Awareness when to step up into the attacking half

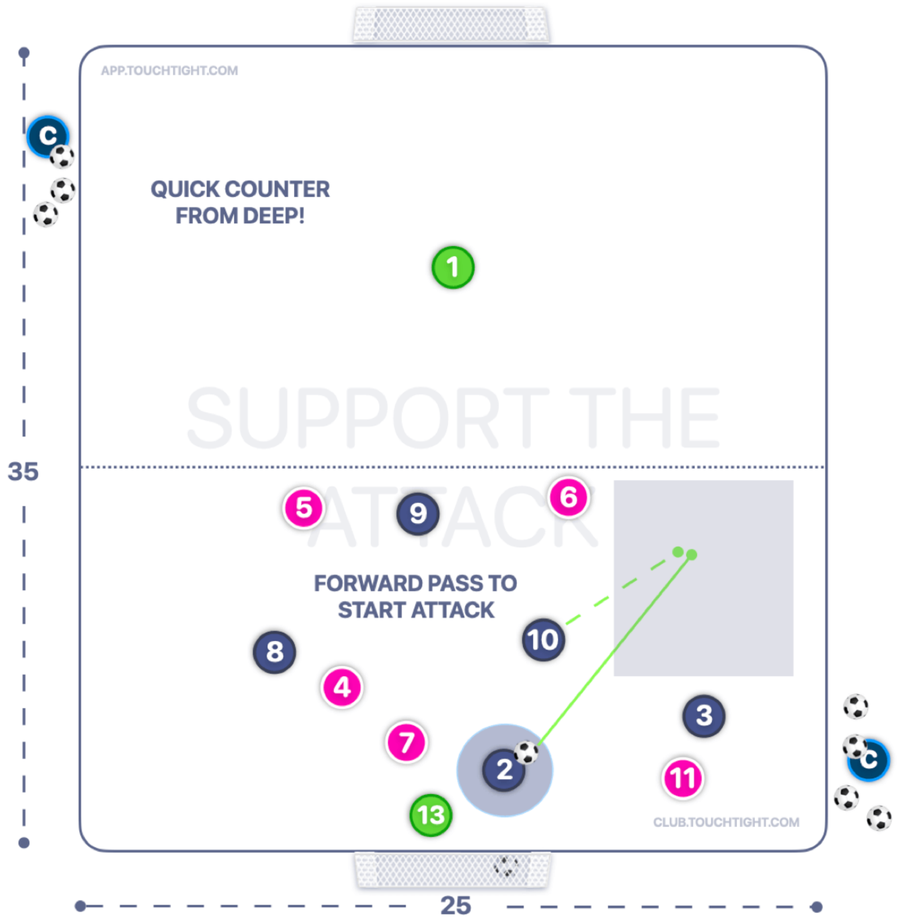

BETTER COACHES. BETTER PLAYERS.

DEFENDING AND COUNTERING FROM DEEP

37-P6 | SMALL SIDED GAME

KEY COACHING POINT 1

Emphasise quick counters from deep - after an interception, play a forward pass to launch the attack immediately. Focus on speed, vision, and exploiting space before the opposition can reorganise.

KEY COACHING POINT 2

Quick defensive transitions - drop back immediately to defend after losing possession. Focus on speed, organisation, and maintaining compact shape to prevent counter-attacks.

BETTER COACHES. BETTER PLAYERS.
