CROSSING AND FINISHING!

BETTER COACHES. BETTER PLAYERS.

ORGANISATION

- This practice takes place in a 40 by 50-yard area and focus on developing one touch combinations , crossing and finishing. We setup with 10 players positioned on the cones and a goalkeeper as shown in the example image.
- To begin, the midfielder with the ball (11) plays a 1-2 combination with the central player (4) before passing to the waiting striker (9). The striker then sets the ball back for the central player who looks to play a through ball for the starting player (11) who's makes the run through the cones out wide.
- The striker (9) and central player (4) make attacking runs into the box to get onto the end of the delivery to finish.
- This sequence is then repeated from the opposite side.

KEY COACHING POINTS SUMMARY

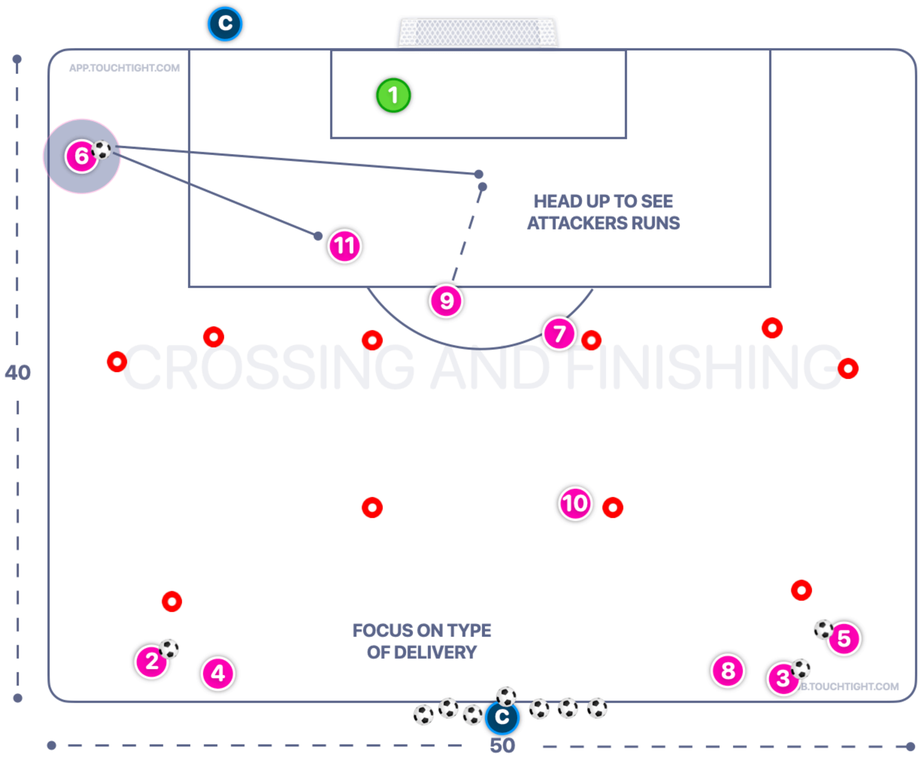

- Quality of one touch passing combinations
- Well weighted pass for crosser to deliver first time
- Quality final delivery and finish. Developing player to player relationships
- Timing of runs when entering the box
- Variety in finishes (headers, volleys, side foots etc)
- High levels of communication between players in the sequence

CROSSING AND FINISHING!

38-P4 | TECHNICAL PATTERN

KEY COACHING POINT

Encourage wide players to keep their head up to read attackers' runs. Focus on selecting the right type of delivery -cutback, floated, or low and hard etc. -to maximise chances of a successful finish.

PROGRESSION

Incorporate full-backs into the sequence - combine centrally, then pass wide for the overlapping full-back to deliver. Focus on timing, movement, and coordinated play to create effective attacking options.

BETTER COACHES. BETTER PLAYERS.
