2 V 2 PRESSING GAME

ORGANISATION

- This practice takes place in a 25-yard square area and focuses on developing pressing to win possession in 2 v 2 scenarios.
- We setup by splitting the area into 4 zones, placing mini-goals in each corner of the area and then creating a smaller central zone.
- Two players from the possession team will start in each square of the larger zone and two defenders will start in the 4 smaller central zones.
- Two Blue players start with the ball, prompting the nearest two Pink defenders to press and win possession.
- The possession team must complete two passes before switching zones, while the next two defenders press on reception. If defenders win the ball, they finish in the mini-goal; if the possession team completes all four zones, they score a goal.

KEY COACHING POINTS SUMMARY

- Speed of press
- Co-ordinated pressing (body shape to force direction)
- Awareness of next pass to get out and press quickly
- Draw the defenders in and play around them
- Passing quality to switch play

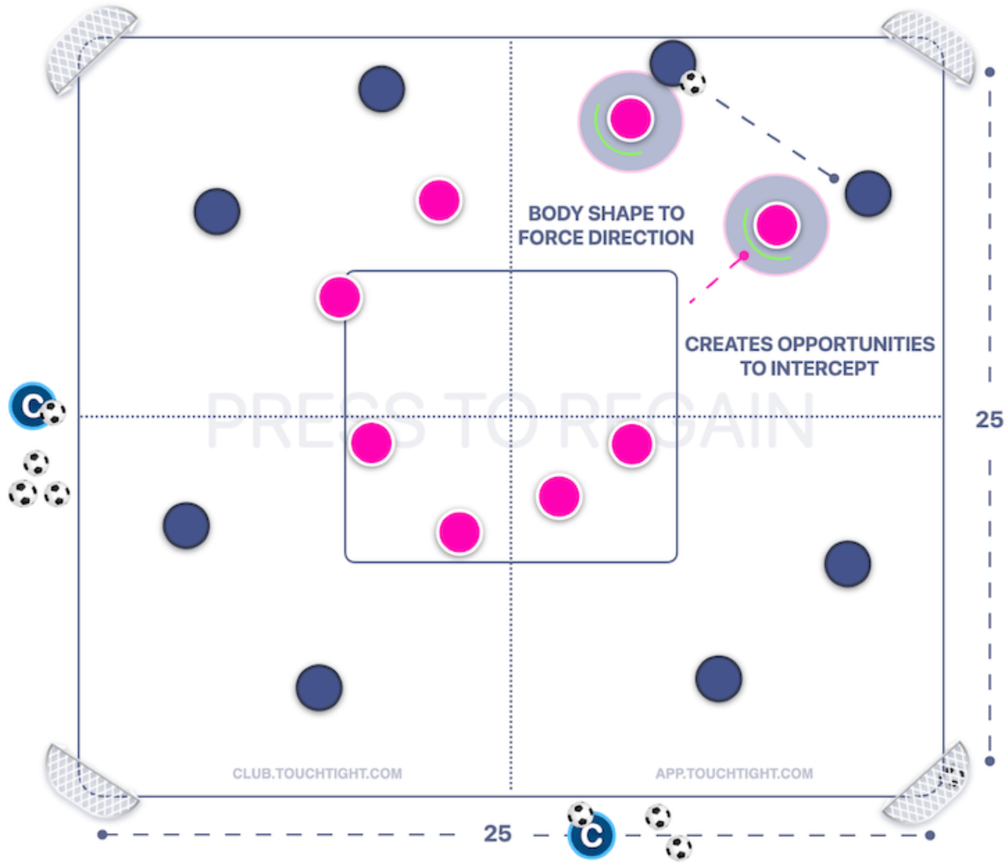

BETTER COACHES. BETTER PLAYERS.

2 V 2 PRESSING GAME

59-P9 | FUNCTION

KEY COACHING POINT

Defenders wait for the ball to enter their zone, then press quickly as a unit, forcing direction, creating interceptions, and finishing in the mini-goals for points.

PROGRESSION

After a few rounds, increase pressing intensity by reducing passes needed to switch play, encouraging players to win possession quickly and maintain high-tempo decision-making throughout the drill.

BETTER COACHES. BETTER PLAYERS.
