BETTER COACHES. BETTER PLAYERS.

ORGANISATION

- This rondo takes place in a 20 by 20-yard area and focuses on developing possession to penetrate.
- We setup by having 4 mini-goals back to back in the centre of the area and creating two teams, 7 possession players (Pink) up against 3 defenders (Blue).
- The objective for the possession team is to keep possession, being awarded with a goal after every 6 passes. After the 1st 6 passes are played, the mini-goals are unlocked. If the possession team can penetrate into any of the mini-goals, they are awarded with 2 goals.
- If the defenders win the ball, they must combine and play outside the area or to the coach to be rewarded with a goal.
- Coaches must be ready with a ball on the side to restart play quickly after a goal or if the ball is played out by the defenders.

KEY COACHING POINTS SUMMARY

- Stretch the defenders - exploit the numerical advantage
- Scan to recognise defenders positions - play through/around
- Decision-making in possession - keep the ball or penetrate
- Create angles off the ball for teammates
- Short sharp passing to maintain possession
- Defend as a unit - press/cover the goals

PROGRESSION 1

Progression 1 removes the pass constraint to penetrate, forcing the possession team to decide whether to retain the ball or play forward at the right moment, improving decision-making and game understanding.

PROGRESSION 2

Progression 2 locks the goals after a penetrating pass is played. The possession team can score two goals by completing five passes, forcing defenders to press aggressively, creating more opportunities for attackers to penetrate.
